Note.—The cost of the annual revision of each county varies each year, in proportion to the number of changes of tenancy, which arise from various causes; viz.—Extensive alterations, which usually follow the sales of property in the Incumbered Estates Court; re-arrangement of farms by consolidation or otherwise; houses being erected or thrown down, &c.; and of course when the changes are numerous the expense of revision is proportionably increased. The cost of revision is also increased generally every third year, owing to the necessity of furnishing new copies of the valuation, in detail, for each County or Poor-Law Union. It is usually found that the corrections consequent on revision can be made on the same copy of the valuation for three years, after which it becomes necessary to supply a new copy, which adds considerably to the expense incurred in that year.
